## **Antonella Delle Fave**

*Professor of Psychology, Medical School, University of Milano, Italy*

Antonella Delle Fave, MD specialized in Clinical Psychology, is professor of Psychology at the Medical School, University of Milano, Italy. Her research work is centered on the study of mental health indicators, flow experience and daily experience fluctuation patterns across life domains and cultures, and among individuals experiencing conditions of diversity and adversity. Together with international partners she has developed a mixed-method design project aimed at identifying happiness and well-being components across countries. Her scientific production includes papers in international peer-reviewed journals, as well as authored and edited academic books. She served as President of the International Positive Psychology Association, the European Network of Positive Psychology, and the Società Italiana di Psicologia Positiva. She is currently Editor in Chief of the Journal of Happiness Studies.
